

## OUR VISION

*A vibrant and growing Catholic community with:*

- Enhanced programs to develop and renew each person's spiritual growth,*
- Well-maintained, inviting physical facilities,*
- Lively outreach programs*
- Celebration of our Centennial, with a view to the next 100 years!*

This vision comes from you, the parishioners of St. Anselm. It was developed based on over 1100 ideas gathered in town hall meetings and weekend Masses in 2005.

Those ideas were consolidated and reviewed. Some have already been implemented. Others did not generate enough support to continue investigating.

One of the major physical plant suggestions was that we provide a place at the church site where we could gather as a community – for lectures after Mass; receptions; Liturgy of the Word. After exploring options, the optimal and most economical solution is a total rectory remodel.

In addition, there are major maintenance actions to preserve our beautiful church building and to enhance the safety and usability of the school complex. After analysis and consultation with experts, we have developed a list of projects:

Church and school renovations and enhancements	\$2.25 million
New meeting hall/rectory	\$3.25 million
Endowment	\$2.00 million

We realize that raising these funds will require an incredible commitment from the parish. We are equally sure that the projects will prepare our parish for the future and enhance the spiritual legacy that we have all enjoyed as St. Anselm parishioners.

We ask for your prayers and support in these endeavors!
